

THIERRY DEKELVER

FULL STACK WEB DEVELOPER

PROFILE

My journey in IT started with SatCom, BlueForceTracking and Comms in the military. Later I developed more skills in building and implementing field network kits for the NGO MSF. Good teamwork and communication skills were of vital importance in these previous work experiences. And now, I want to go deeper into programming, as a web developer. I am very motivated to constantly develop my skills and grow professionally. I am confident in my ability to come up with interesting ideas and work in team on existing projects.

EXPERIENCE

FULL STACK WEB DEVELOPER GRADUATE

Codaisseur | Jan 2020 - March 2020

Intensive 11 weeks bootcamp for full stack web development in JavaScript, React, Redux, Git, Github, React Native, SQL, Docker, PG, etc...

MOBILE FIELD IMPLEMENTATION OFFICER

MSF | March 2016 - Dec 2019

Implementing entire IT setup for MSF missions and projects, IT-infrastructure, NAS, security and internet connectivity. Piloting new technologies for less expensive internet connectivity in remote areas. Reducing cost often by more than 50%.

MILITARY INFANTRY NEC SPECIALIST

ABL | March 2006 - March 2016

Providing and maintaining Network and Communication capability of NATO operations in base and combat situations. Working on individual independent basis, in teams, and as team leader.

EDUCATION

THE OUTSTANDING CODAISSEUR BOOTCAMP

Codaisseur | Jan 2020 - March 2020

This very intensive web dev training brought me the skills in record time to build powerful apps with the technologies described above. I also learned here how to professionally collaborate in team on Git for working on projects. And I'm eager to learn much more.

NCO LEVEL MILITARY EDUCATION FOR NEC SPECIALIST

Royal Belgian Military Academy | 2007 - 2015

Education in the military is spread out over longer periods because we have intervals of missions, which are prioritised. On average 5 months of education, 6 months mission/s, 1 month leave per year.
